

Asphalt Zipper®

RECLAIMER
STABILISER

AZ-480E
SPECIFICATIONS

World Leader in Portable Reclaimers/Stabilizers

4' Cutting Width Loader/Backhoe-Mounted Reclaimer/Stabilizer

The **ALL NEW** AZ-480E (Tier 4 Final) harnesses the power and productivity of much larger self-propelled reclaimers into a very powerful, versatile and affordable loader attachment, with innovative upgrades and improvements throughout. Powered by either a Volvo or Cummins turbo diesel or Ford gasoline engine, the AZ-480E will pulverize up to 12-inch thick asphalt in a single pass. Street patches, full road repairs, base stabilization and opening utility trenches in asphalt are just a few of its many uses.
